Présentation

Discipline rare : Non

Description et objectifs

The purpose of this course is to introduce students to language change and the history of the English language—a chance to get acquainted with the languages Tolkien used to study. No prior knowledge of medieval English is required. In the first semester, we deal with the basics of language change and Old English or 'Anglo-Saxon', the English spoken and written until c. 1150.

The course consists of a lecture for basic facts and theory, and a class for practical exercises (lecture and class brochures will be handed out in the lecture and in class early in the semester).
